Dear Chairwoman Granger and Ranking Member DeLauro:

I am requesting funding for Village of Malta Water Well Project in fiscal year 2024. The entity to receive funding for this project is the Village of Malta, located at 449 Main Street, Malta, OH 43758. The funding will provide for the installation of a new 12" diameter water well to supply the Village of Malta's public water system. This project is a good use of taxpayer funds because the village currently has one production well down and is struggling to keep up with the demand for all of its customers. The village is taking other measure as well including plans on replacing waterlines and valve that are beyond their useful life and leaking. The addition of another water well would greatly help the village supply water to all those that rely on them for fresh water.

The project has a Federal nexus because the funding provided is for purposes authorized by Section 1452 of the Safe Drinking Water Act, 42 U.S.C. 300j-12.

I certify that I have no financial interest in this project, and neither does anyone in my immediate family.

Sincerely,

Troy Balderson
Member of Congress
